Dr. Karen Beck
Environmental Medicine Consortium
NCSU College of Veterinary Medicine
4700 Hillsborough Street
Raleigh, North Carolina 27606

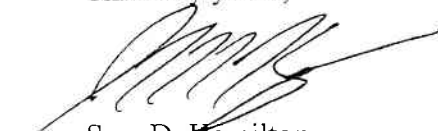

Dear Dr. Beck:

I would like to appoint you to the Red Wolf Recovery Implementation Team. The purpose of this team is to assist us in revising our current Red Wolf Recovery Program Adaptive Management Work Plan and, using this plan and its data, guide us in management and recovery of red wolves in the wild. We anticipate having at least two team meetings per year.

Members of a recovery team serve at the discretion of the Fish and Wildlife Service's Regional Director, who has the lead responsibility for recovering listed species. Although the role of the implementation team members is strictly advisory in nature, the team's recommendations will guide us in making vital decisions in how best to conserve, manage, and recover red wolves in the wild.

Mr. Bud Fazio, Team Leader of the Red Wolf Recovery Program, will be your primary contact with us on matters of red wolf recovery. He will work with you and your team facilitator to assist the team in developing recommendations to us. Please feel free to call Bud at 252/473-1131, extension 240, or me at 404/679-4000 if you have questions. I sincerely hope you will accept this request and make this vital contribution to red wolf recovery.

Sincerely yours,

for Sam D. Hamilton
